MAIN OBJECTS OF TRANSPORTATION COMPANY

1. To carry on the business of providing technology-enabled transportation services including but not limited to ride-hailing, carpooling, bike taxis, auto-rickshaws, and cab aggregation through mobile applications, websites, or call-based bookings, for both intra-city and inter-city travel.
2. To develop, design, own, and operate software platforms and mobile applications that connect passengers with drivers, facilitate real-time ride bookings, route optimization, fare calculation, digital payments, and customer support, thereby enabling seamless urban mobility solutions.
3. To engage in the business of vehicle leasing, hiring, and fleet management, including owning, operating, sub-leasing or contracting vehicles such as cars, two-wheelers, and electric vehicles for commercial transportation, employee mobility, and logistics delivery services.
4. To provide ancillary and support services related to mobility, including driver onboarding and training, road side assistance, vehicle maintenance, insurance facilitation, charging infrastructure for EVs, and integration of GPS, telematics, and safety monitoring systems.
